**FANUC Robotics Canada
to Host Intelligent Robotic
Applications Forum**

For Immediate Release

MISSISSAUGA, ON, Sept. 25, 2007 – FANUC Robotics Canada, Ltd. will demonstrate its latest intelligent robotic solutions for assembly, machine tending, packaging, bin picking, coating and arc welding at the company's facility in Mississauga, Ontario, October 17-18, from 9:00 a.m. to 4:00 p.m.

The event will feature robot system demonstrations, interactive presentations, and breakout seminars on the company's new LR Mate 200iC LEAN (light, efficient, accurate, nimble) robot and iRVision products including examples of 2D and 3D robotic vision applications. Also, attendees will have the opportunity to meet with automation experts to discuss their own manufacturing challenges.

In addition to the LR Mate 200iC mini robot and iRVision (built-in vision), FANUC Robotics will demonstrate the new ARC Mate 100iC arc welding robot, M-430iA high-speed picking robot, P-250iA and P-50iA industrial coating robots, force sensing, offline programming, and simulation.

"Our event is designed for current and potential users of robots," said Peter Fitzgerald, general manager, FANUC Robotics Canada, Ltd. "It will be a perfect opportunity for potential users to gain first-hand knowledge of robot operations, programming, electrical interface, and workcell planning. In addition, it will provide experienced users with details on our latest technologies including vision, force and torque sensing, and motion control."

FANUC Robotics Central is located at 6774 Financial Drive, Mississauga, Ontario L5N 7J6. For more information call 1-800-iQ-ROBOT (option 5), or register online at www.fanucrobotics.com/event5

-more-

FANUC Robotics Canada, Ltd. designs, engineers and manufactures industrial robots and robotic systems for a wide range of applications including arc and spot welding, material handling (machine tending, picking, packing, palletizing), material removal, assembly, paint finishing and dispensing. The company also provides application-specific software, controls, vision products, and complete support services. After 25 years of success, FANUC Robotics maintains its position as the leading robotics company in the Americas. A subsidiary of FANUC LTD in Japan, the company has facilities in Chicago; Los Angeles; Charlotte, N.C.; Cincinnati and Toledo, Ohio; Toronto; Montreal; Aguascalientes, Mexico; and Sao Paulo, Brazil. Over 172,000 FANUC robots are installed worldwide. Contact FANUC Robotics at www.fanucrobotics.com or by calling 905-812-2300.
